

Porte raffinate e robuste che grazie alle finiture disponibili possono mimetizzarsi con la parete stessa o diventare un ideale sipario che divide in maniera scenografica i vari ambienti della casa.

Le porte scorrevoli MAGIC sono realizzabili al centimetro in larghezza e altezza.

Possono avere superficie liscia in finitura laccato opaco, laccato metallico, essenza (venatura sempre verticale), stampa digitale (solo su laccato opaco o vetro laccato), vetro laccato o specchiato (no lato binario); oppure possono avere superficie SLOT in finitura laccato opaco (con fresata laccata dello stesso colore) o essenza (con venatura verticale e fresata colore nocciola).

Refined and sturdy doors that, thanks to the available finishes, can blend in with the wall itself or become an ideal curtain that scenographically divides the different home rooms.

The sliding doors MAGIC can be made to the centimetre in width and height.

They can have a smooth surface finished in matt lacquered, metallic lacquered, wood (always vertical grain), digital print (only on matt lacquered or lacquered glass), lacquered or mirrored glass (not on the track side); or they can have a SLOT surface finished in matt lacquered (with lacquered milling in the same color) or wood (with vertical grain and milling in nut color).

DISEGNI TECNICI

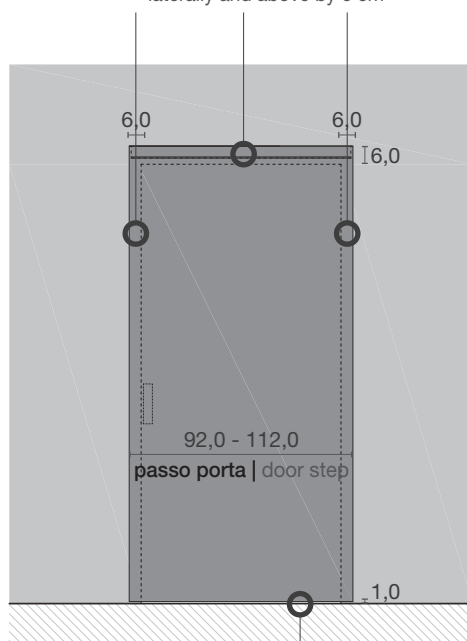

TECHNICAL DRAWINGS

porta in legno tamburato sp. 4 cm
honeycomb wood door th. 4 cm

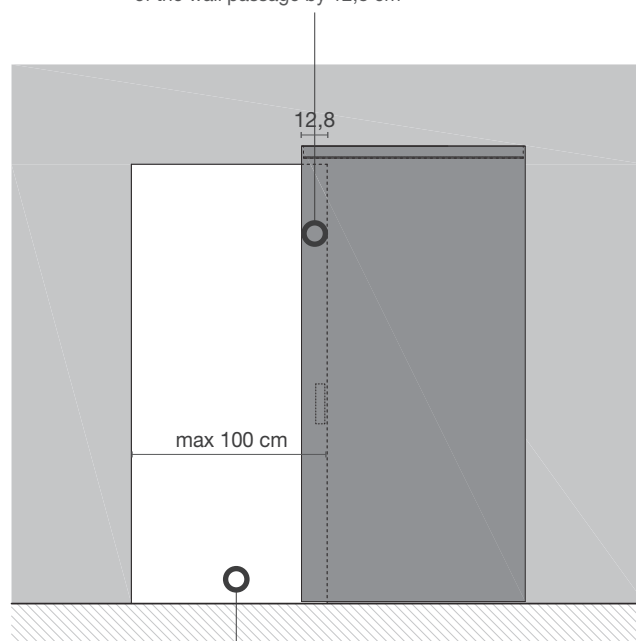

**distanza dal muro possibile da 1,2 a 2,0 cm,
 specificare all'ordine**
 distance from the wall allowed from 1,2 to 2,0 cm,
 to be specified in order request

**la porta da chiusa sormonta il muro
lateralmente e superiormente di 6 cm**
when closed, the door overlaps the wall
laterally and above by 6 cm

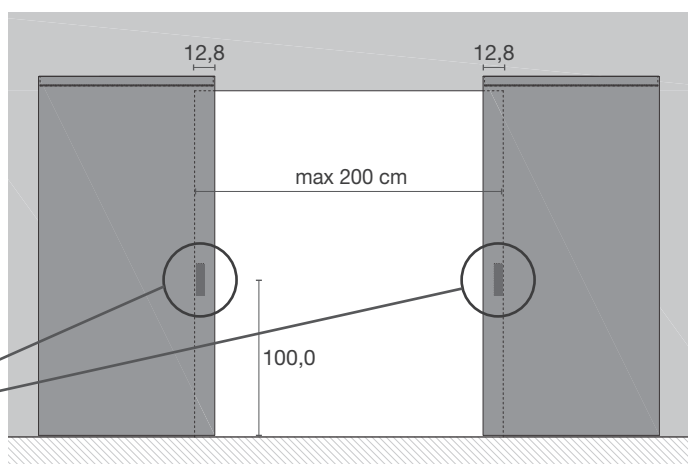

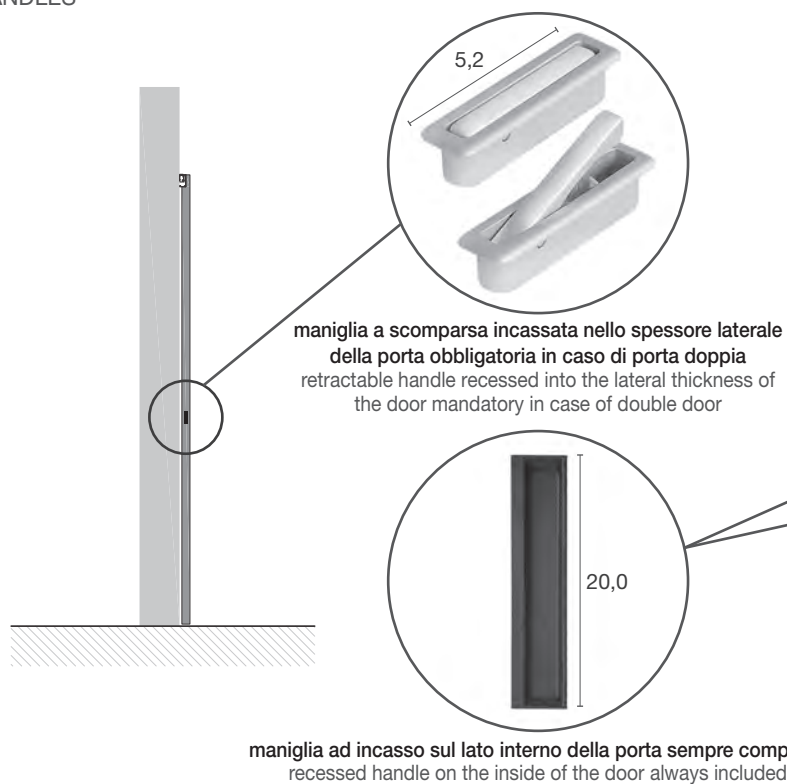

vuoto sotto porta 1 cm
1 cm gap under the door

la porta da aperta riduce la larghezza del
passaggio nel muro di 12,8 cm
when opened, the door reduces the width
of the wall passage by 12,8 cm

quando il passaggio nel muro è più largo di 100 cm
è necessario prevedere 2 porte
when the wall passage is wider than 100 cm,
it is necessary to provide 2 doors

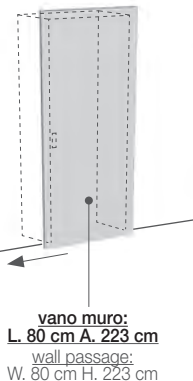

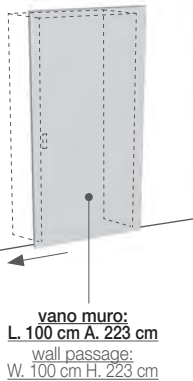

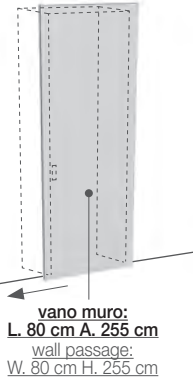

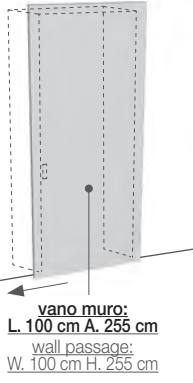

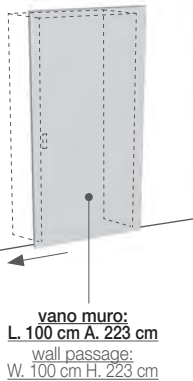

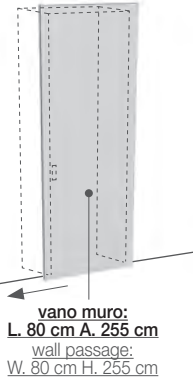

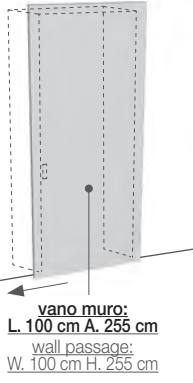

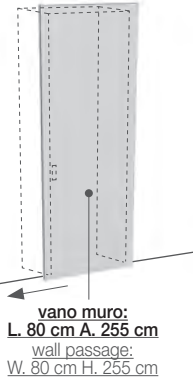

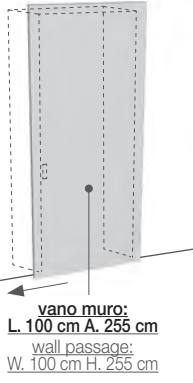

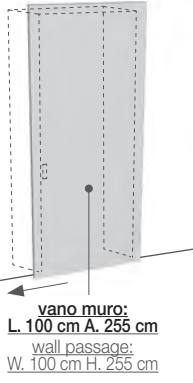

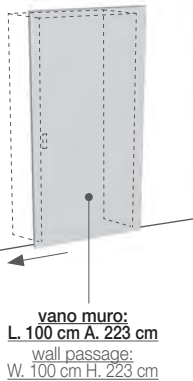

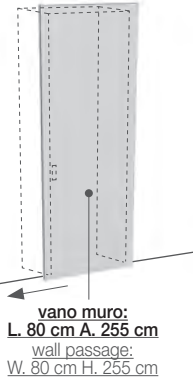

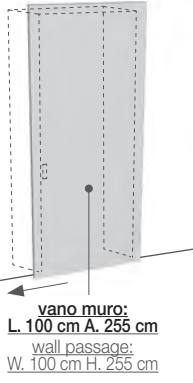

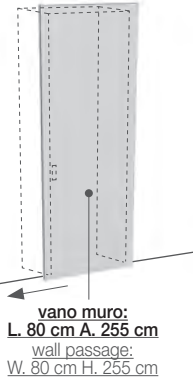

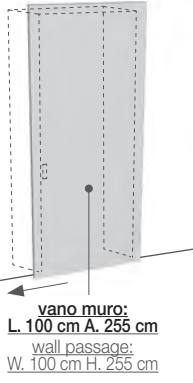

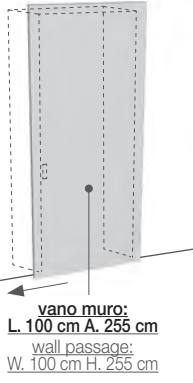

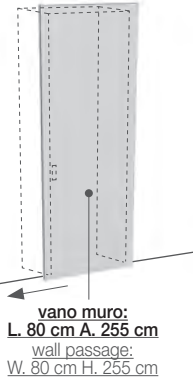

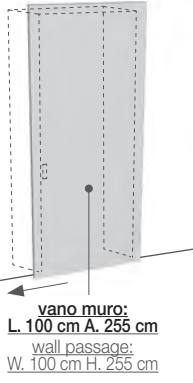

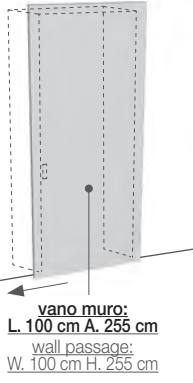

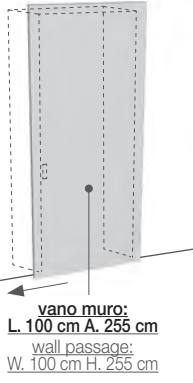

MANIGLIE HANDLES

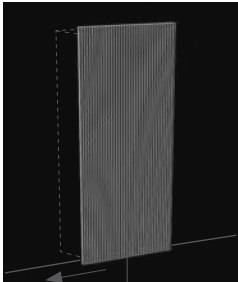

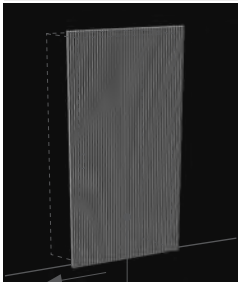

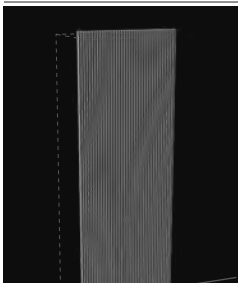

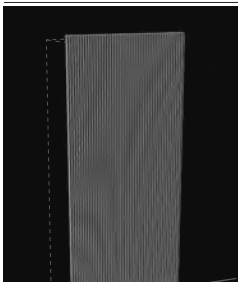

non è possibile inserire la maniglia sul lato esterno
in presenza del vetro
it is not possible to insert the handle on the external side
in the presence of glass
